Event Overview

WHO

The Boston Municipal Research Bureau is a nonprofit public policy organization established in 1932 to promote responsible and efficient government and to effect policy changes on issues important to Boston's future. Henry L. Shattuck, the guiding force behind the Research Bureau's creation, was a strong advocate for honest service and public accountability. The Research Bureau's passion for this mission continues and is supported by those city, business, and institutional leaders who value good government.

WHAT

Henry L. Shattuck Public Service Awards

The Research Bureau initiated the Shattuck Awards in 1985 to each year honor a select number of City of Boston employees who have committed themselves to excellence in public service in Boston, far above their direct responsibilities. Since 1998, a business leader and a nonprofit leader have been recognized as Shattuck City Champions for their contributions to the Boston community. Also since 1998, on occasion a City of Boston department head is selected to receive the Shattuck Chairman's Award for extraordinary leadership and dedication.
